

Listening to K-LOVE on 91.3 FM is a daily part of my lifestyle and has been for the past 4 years. The FM station provides information and music essential to my needs on a daily basis. I would be unable to have the service K-LOVE provides to me from any other LPFM station. I do not believe that an LPFM station would be qualified to provide me with the quality service that FM 91.3 currently does. I do not support the idea of switching to a LPFM station in my area.
